

Project Brief

The students of The Birley Academy produce brilliant work every day. We think it's about time that we began to publicly celebrate and share the great work that we do, just like a professional artist might show their work in a gallery, and professional actors perform in theatres across the world. We want to celebrate our work and our learning with your families, in an event that can we invite them to enjoy with us.

Project Requirements

The event is going to be held in the school, and your task is to decide how we can best show off our work and our learning in each area of school.

Your Task

Use the template that follows to plan how we will show off our work in each subject in school. Consider what technology you might need to show off our work in each area. Think about what will be the most interesting for parents and families to see when they visit us. One area of school has been completed for you, as an example.

Example Planning

**Area of
School – The
Assembly hall**
**Subject To Be
Celebrated
There –**
Music

What Will Be Happening?

As visitors arrive to school, the school choir will be performing, showcasing how we have learned to sing in harmony in our music lessons this year. Students will be in school uniform, and will be singing a capella.

What Impression Will This Create of Our School?

This will create a warm and inviting welcome for visitors, and will showcase our school's love of the creative arts. People arriving at the building will gain a sense of the fun that we enjoy in Performing Arts lessons.

You should now write your own plan for each of the following subjects/provisions in school. You should include: the area of the building where the celebration of this subject will take place, exactly what visitors will see, hear or experience, and describe the impression of our school that this will create.

History
Geography
RS
English
Maths
The Library
The IR
Science
DT
Food
Design & Technology
Art
PE

Any of our clubs and societies that you think we should celebrate.

Thank you for your proposal for our
celebration project!
